

Soft Red Winter • MEDIUM LATE

# AgriMAXX 498

high performance wheat

Maturity	Medium Late
Head Type	Smooth
Height	Medium Tall

- Strongest in northern zones
- Good choice for growers wanting straw
- Responds to fungicides at bloom
- Excellent milling & baking quality
- Palisade recommended in high fertility
- High nitrogen use efficiency

AgriMAXX 498 replaced our popular 438. Visually, they look similar in the field, but 498 has better yield, standability, scab and test weight. 498 tillers well and has excellent winter hardiness for northern winters. It's a fuller season maturity that has a niche for growers wanting a longer season variety. If you are wanting straw, 498 is a good choice as it tillers well and is a taller variety. Our research has shown that 498 responds to fungicides at bloom for growers managing for top-end yields.
