

Soft Red Winter • VERY EARLY/EARLY

# AgriMAXX 531

**HEAVYWEIGHT™**

*high performance wheat*

Maturity	VE/Early
Head Type	Smooth
Height	Medium Tall

- Heavyweight™ for elite test weight
- Late jointing variety, but matures early/very early
- Straw dries quickly & makes double cropping easier
- Very good head scab resistance
- Excellent milling & baking qualities

AM 531 is a HEAVYWEIGHT™ variety that brings value to the double crop farmer. This variety performs well in no-till with very good emergence. If you plant early, you will appreciate the late joint of 531 to lessen the risk of spring freeze damage. We like this variety in a fungicide program to help overall health and performance. Additionally, 531 minimizes head scab infections with a very good rating, enabling this variety to be planted behind corn and put high quality grain in the bin. Speaking of high quality, some mills have 531 on their preferred list.
